Senior Fellow, Aspen Institute

Did you know... That 88% of Americans drive to work?

Did you know... That providing non-prime auto loans is big business and that credit unions have captured only 5% of the non-prime used auto loan market?

Furthermore... Vehicle lending is credit unions' "bread and butter." Yet many credit unions have not discovered that serving borrowers with poor or thin file credit scores can be a great business opportunity. Credit unions that have balanced risk with pricing have successfully reached hundreds of low-wealth consumers while building reserves for the institution

FACT: Over 40 million used vehicles are sold each year in the US – 2½ times the number of new vehicles sold. Eight million of these vehicles are sold to low- and moderate income borrowers.
